NEW YORK COLLEGE

Pinelopi Alexopoulou

Graduate 1999
MBA in Sports
Management
University of Louisville

Attending the Master Program in Sport Management, I found the answers/solutions in my preoccupations based on my experience as a former Champion in Track & Field.

Through the interaction with the American Professors, I contacted in a systemic way the "know-how" on research, planning and implementing Sport Management in USA fully prepared to participate in Research Working Groups.

Moreover, the Greek Professors facilitated my entering in the national market.

- I participated in planning, implementing and assessing of the Master Plan of Municipality of Kifissia in the context of the Olympic Games "ATHENS 2004" (2000 - 2005)
- I attended the National School of Local Government - Ministry of Internal Affairs, member of European Network of Faculties of Public Administration -. (2006 - 2007)
- I coordinate seminars in Sport Management and in Management Skills issues (Negotiation and Conflict Management) on a Post-graduate Level in Academic and Life Long Learning Institution (2000 - 2009)
- I implement Project Management in Co-funded Programs in the Territorial Collaboration context based on Total Quality terms (ISO, CAF, MBO, NPM) in the Planning & Programming Head Department of Ilia Prefecture/ Western Greece Region (2008 - 2009)

Not only during the Master Program, but also after graduating, the Academic and Administrative Personnel corresponded immediately in my needs. Moreover, the powerful brand name of the institution contributed significantly in my first professional attempts and the educational methods adopted by the NYC, helped me keeping up with the evolution of my professional field.

Consequently, I would definitely recommend a Postgraduate Program of NYC in Bachelor holders with or without professional experience.
