

Indicative Module

Graduates of our program will emerge with a diverse set of skills, fully prepared for a successful professional career. These skills include:

Programming: Graduates gain experience in various programming languages and software development platforms, including Java, Python, and many others, ensuring the ability to develop advanced software applications.

Data Analytics: Graduates are trained in data analytics and mining techniques, as well as the use of tools and technologies for extracting valuable insights from large datasets.

Artificial Intelligence (AI): With specialized modules in Artificial Intelligence, graduates gain an understanding of core machine learning algorithms, neural networks, and other techniques applied in advanced AI systems.

Systems Analysis and Design: Graduates acquire skills in software design and development, including software development methodologies and project management practices.

Research and Professional Issues: In addition to technical skills, graduates develop communication and collaboration skills that help them interact effectively in their professional environment.

why choose this programme

Highly Qualified Academic Staff

Our team comprises professors from prestigious universities and seasoned IT professionals with extensive experience both in Greece and internationally

Cutting-Edge Curriculum Options

between Artificial Intelligence, Data Analytics, and Application Development

Collaboration with Industry Leaders

to facilitate the transfer of knowledge, expertise, and job placement opportunities from the early years of study

Evaluation

through practical assignments designed to help you build a comprehensive personal portfolio.

Program Flexibility

with full-time or part-time studies

Classes

in Greek and English

Unlock Your Future in the IT Industry

The IT industry stands as a major global employer, offering a wide array of career opportunities. Whether your passion lies in application development, networking, cybersecurity, big data analytics, autonomous systems, or artificial intelligence, there's a path for you. Additionally, the sector offers numerous roles in vocational education and training.

At the University of Bolton - Greater Manchester, our graduates are well-prepared to pursue advanced studies at the master's and doctoral levels. With the industry's rapid growth, the demand for professionals with hands-on experience and up-to-date IT skills is on the rise. This positions our graduates with a distinct competitive edge in the job market.

Join us and step confidently into the future of IT!

CURRICULUM

- Level 3**
- Computer Systems
 - Fundamentals of Programming
 - Logical Analysis and Problem Solving
 - Academic Language and Skills
- Level 4**
- Maths for Computing
 - Computer Science Fundamentals
 - Computing Infrastructure
 - Databases
 - Object Oriented Programming
- Level 5**
- Systems Analysis and Design
 - Web Design and Programming
 - Cloud Technologies
- Choose one of the following:**
- Advanced Databases and Big Data
 - Introduction to Artificial Intelligence
 - Advanced Operating Systems

- Level 6**
- Research and Professional Issues
 - Undergraduate Project
 - Emerging Technologies

- Choose one of the following:**
- Applied Machine Learning
 - Software Quality Management
 - Information Security Management
 - Operations Management
 - Natural Language Processing

TO SUCCESS

University of
Greater Manchester
IN THE 30 BEST UNIVERSITIES IN THE UK!
(Guardian 2024)

The public British university University of Greater Manchester (known until 2024 as the University of Bolton) has a long history and strong commitment to the provision of high-quality education. It was founded in 1824 as Bolton Mechanics’ Institute, one of the first educational institutions in Great Britain. The University of Greater Manchester has managed to stand out for the quality of its teaching. The Times and Sunday Times Good University Guide 2023 ranks it first in North West England for teaching quality, the Complete University Guide 2024 ranks it first in student satisfaction, while the University held the 30th position according to the Guardian’s 2024 ranking list of British Universities. Recently, the BBC highlighted the UNIVERSITY OF Greater Manchester as a model for the Universities of Britain regarding its operating standards for student safety during the Covid-19 pandemic, and the British Minister of Education Michelle Donelan, from the podium of the House of Commons, referred to the “amazing work the University is doing.” New York College has a franchise agreement in accordance with the legislation of the Greek Ministry of Education, and the degree you will receive at the end of your studies is awarded by the University itself.

Greater Manchester’s No.1
University for Student Satisfaction
for the last 6 years
