NEW YORK COLLEGE

A multinational educational group with four decades of success and distinction!

One of the largest and fastest-growing educational organisations in Europe.

Founded in Athens in 1989 in partnership with the State University of New York, New York College has steadfastly delivered pioneering academic opportunities and professionally oriented degree programs.

Combining Greek cultural heritage with the benchmarks of US and European higher education, the College equips tomorrow's leaders, scholars, and industry professionals with a global perspective to excel in today's competitive international landscape.

The International Dimension of the New York College Group

1989: New York College is founded in Athens through the first international academic accreditation agreement in Greece, in partnership with the largest university system in the US, the State University of New York (SUNY).

This agreement provided a unique opportunity for students in Greece to pursue internationally recognized studies and reshaped the landscape of post-secondary education, paving the way for further collaborations with public universities in the UK and the US.

1998: Following nine years of successful operation, the College establishes the University of New York in Prague (UNYP) in the heart of Europe, the Czech Republic. UNYP became the first private higher education institution to be officially recognized as a PRIVATE UNIVERSITY by the Czech Ministry of Education.

2001: New York College launches its branch campus in Thessaloniki.

Study at world-renowned state universities in the UK and the US, and obtain a degree with international recognition, professionally equivalent to those of the Greek State Universities.

DISTINCTIONS

New York College has been upgraded as one of the top two Greek colleges in the Global Ranking of Educational Institutions in Greece, according to a study prepared by the Quality Assurance Unit (ΜΟΔΙΠ) of the NATIONAL AND KAPODISTRIAN UNIVERSITY OF ATHENS (ΕΚΠΑ), which was published in Kathimerini (sheet no. 29.810).

The BACHELOR's, MASTER's and Ph.D. degrees awarded to graduates of the College by partnering State universities abroad, are recognized by the competent body of the MINISTRY OF EDUCATION (Α.Τ.Ε.Ε.Ν.), as professionally equivalent to the degrees of the Greek State Universities.

CERTIFICATIONS

New York College Educational Group is certified by the BRITISH ACCREDITATION COUNCIL as an institution of higher education.

New York College has a Foundation License from the Ministry of Education of Greece as a College (76656/Δ6/30-6-2009 and 86153/Δ6/17-7-2009) and Operating License as published in the Government Gazette (license no.: 108275/ΙΑ, Government Gazette 2061/Β/23-8-2013, update of licence 3056/Κ1 145277, Government Gazette 3647/Β/01-10-19).

*UNIVERSITY OF NEW YORK IN PRAGUE (UNYP) of the NEW YORK COLLEGE Educational Group was recognized as a PRIVATE UNIVERSITY by the Ministry of Education of the Czech Republic:
www.unyp.cz/about/partnerships/accreditations.

Message from the President

Dear students, visitors and friends,

I welcome you to New York College, a growing international organization, the only educational institution in Greece that has developed university education abroad and even in the heart of Europe (Czech Republic).

More specifically, our journey began in 1989 at the world-class NYC Athens Campus—in the historic heart of Athens, the very cradle of knowledge and civilization—in academic partnership with the State University of New York (SUNY), the largest comprehensive university system in the US. It was then that we signed Greece's first international academic accreditation agreement. Since then, we have established three educational institutions in Greece and abroad, offering undergraduate and postgraduate degree programmes in collaboration with distinguished public universities from the UK and the US.

Thanks to the invaluable contributions of our distinguished faculty and administrative staff, whose dedication and passion span decades, our graduates excel in their chosen fields with the knowledge and tools acquired at New York College, turning the ethos of "excellence" into practice!

New York College's distinct competitive advantage lies in the synthesis of two core pillars of our educational mission: first, providing students with rigorous academic expertise and practical skills to successfully navigate future professional challenges; and second, instilling the timeless values of Hellenic civilization—the cornerstone of modern Western culture—enduring principles that foster excellence, integrity, and leadership in society. On this foundation, our institutions cultivate holistic higher education (well beyond simple vocational instruction), unlocking global career pathways in the fast-evolving corporate world and beyond.

Within this framework, honoring our heritage while looking resolutely to the future, I wish you every success in the new academic year.

Ηλίας Φούτσης, Hon Ph.D.,

President and Founder of NYC Educational Group

STATE UNIVERSITY OF NEW YORK

- Empire State University, U.S.A.

4 DECADES OF SUSTAINED UNIVERSITY COLLABORATION

New York College Educational Group marks four decades of enduring partnership with the State University of New York (SUNY), the largest public university system in the US, delivering its academic degree programs in Greece.

Our students in Athens and Thessaloniki earn an authentic Bachelor's degree awarded by the State University of New York - Empire State University, backed by the international recognition and global prestige of the American higher education system!

Aerial view of the central administration building
of the STATE UNIVERSITY OF NEW YORK in Albany, NY c.1980

New York College was founded in Athens in 1989 through a strategic academic partnership with the largest university system in the United States, the State University of New York (SUNY). This collaboration remains steadfast and thriving to this day, enabling New York College students to earn an authentic American degree directly from Empire State University (ESU), a distinguished institution within the SUNY network.

The State University of New York (SUNY) is the largest comprehensive public university system in the US. Established in 1948, it currently encompasses 64 campuses—including leading research centers—serving approximately 400,000 students annually. With a global alumni network exceeding 3 million graduates, SUNY stands as a benchmark of academic excellence.

Empire State University (formerly Empire State College), headquartered in Saratoga Springs, New York, was established in 1971. Today, it serves around 20,000 students and has surpassed the historic milestone of 100,000 alumni worldwide. Its academic distinction is underscored by full institutional accreditation from the Middle States Commission on Higher Education (MSCHE), one of the most prestigious, rigorous, and authoritative higher education accrediting bodies in the United States.

By choosing New York College, students become part of an international academic environment, earning a qualification backed by the global recognition, prestige, and credibility of the American higher education system—providing the ideal foundation for a borderless career.

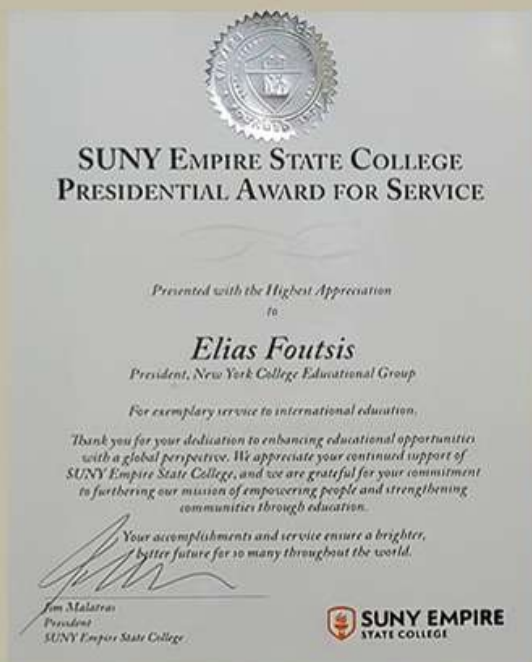

Degrees awarded directly by the partner public university.

Professional equivalence recognition of
degrees by the Hellenic Ministry of
Education.

The Presidential Medal of the State University of New York (SUNY-ESC), awarded to the President and Founder of New York College Educational Group, Mr. Elias Foutsis, Hon. PhD, in recognition of the longstanding partnership between the two educational institutions.

Dr. Lisa Vollendorf, President of the State University of New York - ESU, presenting a commemorative plaque to the President and Founder of New York College Educational Group, Mr. Elias Foutsis, Hon. PhD, in recognition of the longstanding partnership between the two educational institutions (NYC Educational Group and SUNY-ESU).

University of New York in Prague (UNYP) Graduation Ceremony, member institution of the NYC Educational Group. June 2023, Žofín Palace, Prague, Czech Republic.

< Visit to NYC Athens Campus (February 2020) by Mr. Jim Malatras, President of the STATE UNIVERSITY OF NEW YORK - ESC and thereafter Chancellor of the largest state university in the US, the STATE UNIVERSITY OF NEW YORK (SUNY), who presented Mr. Elias Foutsis, President and Founder of New York College and the University of New York in Prague (UNYP) - a subsidiary Private University of New York College Educational Group - the SUNY-ESC Presidential Award in recognition of his outstanding commitment to the long-term collaboration of the two educational institutions for 38 years and his contribution to the strengthening of the global educational community of the STATE UNIVERSITY OF NEW YORK.

UNIVERSITY OF GREENWICH, U.K.

The University of Greenwich, a prestigious public British university based in London, is internationally renowned for the high employability rate of its graduates, reflecting its outstanding reputation across the global job market. Over the years, the University of Greenwich has consistently garnered top accolades, achieving a Gold rating in the Teaching Excellence Framework (TEF 2023 Gold) for academic and teaching excellence, being ranked the 3rd best university in London by StudentCrowd (2024), and standing as the 2nd leading university in London for sustainability according to the Times Higher Education Impact Rankings 2024.

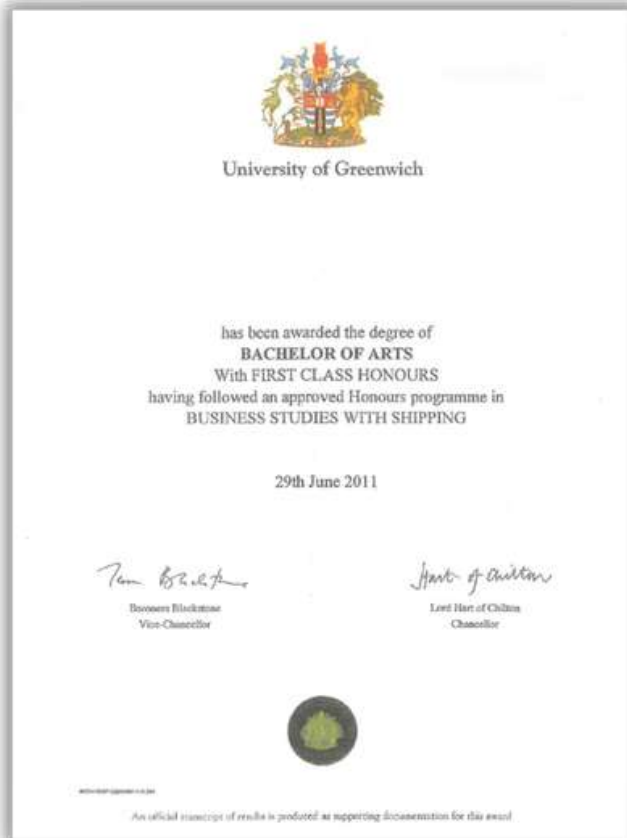

In a landmark development, New York College's partner institution, the University of Greenwich, is joining forces with the University of Kent to establish the UK's first "Super-University"—the London and South East University Group (LASEUG)—effective Autumn 2026. Bringing together over 50,000 students across four campuses in London, Medway, and Kent, it will stand as the 3rd largest higher education institution in the United Kingdom. This historic milestone further elevates the prestige and value of studying at New York College in Athens & Thessaloniki, which is one of only three partner institutions of the University of Greenwich in Europe and represents its longest-standing academic partnership.

UNIVERSITY OF
GREENWICH | University of
Kent | LASE University
Group

In collaboration with the University of Greenwich, New York College offers undergraduate and postgraduate programmes entirely taught in Greece, enabling students to graduate with the authentic degree awarded by this world-renowned British public university. New York College operates under a formal franchise agreement in full compliance with Hellenic Ministry of Education regulations, and upon completion of your studies, your degree is conferred directly by the University of Greenwich.

UNIVERSITY OF GREATER MANCHESTER, U.K.

The University of Greater Manchester (known until 2024 as the University of Bolton), a distinguished British public university, boasts a rich heritage and an enduring commitment to delivering high-quality education. Founded in 1824 as the Bolton Mechanics' Institute, it stands as one of the earliest higher education institutions in Great Britain.

The University of Greater Manchester consistently distinguishes itself through teaching excellence and an exceptional student experience. According to the latest benchmarks, The Times & The Sunday Times Good University Guide 2025 ranks the institution No. 1 in the North West of England for Teaching Quality and Student Experience. Furthermore, The Complete University Guide 2025 places it 1st in the North West for Student Satisfaction. In addition, the BBC recently highlighted the University of Greater Manchester as a benchmark institution among British universities for its exemplary standards in student safety.

New York College operates under an official franchise agreement in full compliance with the regulatory framework of the Hellenic Ministry of Education, ensuring that upon the successful completion of your studies, your degree is conferred directly by the University of Greater Manchester.

OUR COMPETITIVE ADVANTAGES

- **Degrees from Internationally Renowned Universities** Degrees conferred upon New York College graduates are awarded directly by partner public universities in the UK and the US. This ensures full recognition, value, and prestige in both the Greek and international employment markets.
- **Guaranteed Internships and Career Placement** The New York College Career Office collaborates with industry-leading companies in Greece and abroad, securing internship opportunities and pathways to direct career placement for our students.
- **Vibrant Student Life & Activities** New York College provides an extensive range of extracurricular activities, including athletic, cultural, and social initiatives. These opportunities foster personal growth, social integration, and valuable networking with peers and professionals.
- **Integration of Theory and Practical Application** Academics at New York College bridge rigorous theoretical knowledge with hands-on application, directly addressing contemporary market demands. This empowers students to gain the critical skills and practical experience required for career success.
- **Distinguished Academic Faculty** The New York College faculty comprises eminent professors and scholars with extensive international research backgrounds, academic distinction, and industry expertise.
- **Student-Centred Approach** New York College champions a student-first philosophy, offering a supportive, inclusive, and stimulating learning environment. Students are guided to cultivate their talents, critical thinking, and leadership capabilities within a modern academic setting.
- **Global Prestige and International Standing** New York College is recognized as the only Greek higher education group with an established institutional presence abroad. This international footprint reinforces the value of our degrees and alumni, unlocking a broad spectrum of global career opportunities.

**Study at New York College in the greenest
and most historic neighborhood of Athens.**

The neighborhood where knowledge and culture
began!

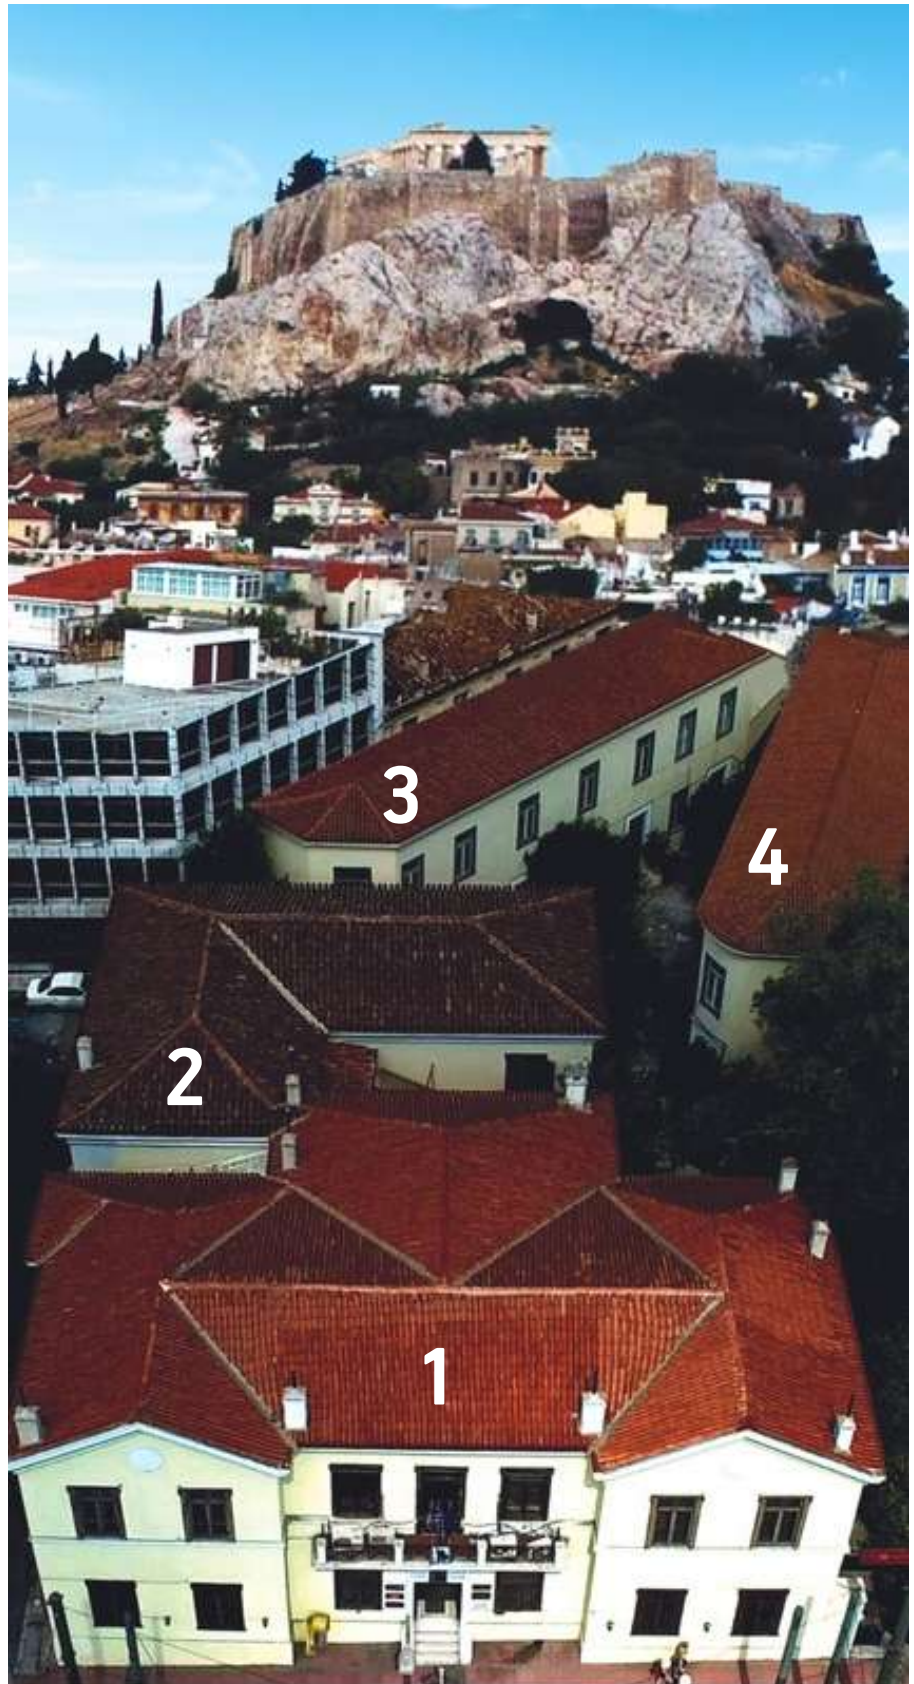

NYC Athens Campus

The only multi-building campus in the heart of Athens!

New York College students benefit from a unique privilege: They study at the NYC Athens Campus, the only multi-building educational complex in the heart of Athens, whose history spans three centuries (19th-21st). Historically, the site where NYC Athens Campus is now located, was inaugurated as an educational facility in 1879, and is an iconic landmark of the Old City of Athens, literally in the shadow of the Acropolis.

& metro station.**

The state-of-the-art five-storey building of New York College in Kallithea is named "NYC Pythagoras Hall" and is the laboratory and technological arm of the NYC Athens Campus: the NYC Pythagoras Hall is home to the Biomedical Laboratory of the School of Health Sciences of the educational group, as well as to the School of Maritime Studies and the School of Engineering & Informatics of the College.

NYC Thessaloniki Campus

**In the heart of Thessaloniki,
in the historical area of Kamara!**

New York College | 32

The international college of Greece

NYC Thessaloniki Campus is the academic arm of New York College in Northern Greece and the wider region of the Balkans.

The Campus, located in the city centre, has conference rooms, a computer lab, a library, a writing centre and special classrooms with advanced audiovisual equipment and study areas.

NYC Thessaloniki Campus combines a student, technological and entrepreneurial character and is known for the vibrancy and diversity of its students.

University of New York in Prague, Czech Republic - Prague

The diamond of the NYC Group
in Central Europe!

The University of New York in Prague, located in the beautiful and quiet Vinohrady district, is housed in a neoclassical mansion, just a few minutes' walk from the center of Prague.

The University is in an excellent location between the two public transport hubs, Pavlova and Náměstí Míru, for quick and easy access to the city center.

The location provides ideal conditions for teaching and learning, as well as for student life.

Professor Dimitris Bourantas

Dean of the New York College Educational Group,
Founder of the postgraduate programs in Human Resources Management and Executive MBA of the Athens University of Economics and Business (formerly ΑΣΟΕΕ).

University Professor and distinguished author, Mr. Dimitris Bourantas, was the founder and director of the postgraduate programs in Human Resources Management and Executive MBA at the Athens University of Economics and Business.

He has been awarded the title of "High Teaching Achievement" by the Department of Management Science and Technology of the Athens University of Economics and Business. Twelve of his popular books have been published in Greece. He has many years of professional experience as a board member, as well as a consultant and trainer for a large number of companies. He has directed numerous research projects on Management in Greece.

Research

In addition to its important educational work, New York College has for many years been active in the field of academic and scientific Research.

The College's academics are renowned scientists with significant research work that is internationally recognized, both through hundreds of publications in distinguished scientific journals and through participation in conferences:

www.nyc.gr/about-nyc/research-new-york-college
www.unyp.cz/about/academics/research-publications

New York College encourages students to conduct research as part of their studies and to publish their results.

Cooperation with other members of the Group, such as the University of New York in Prague with a significant presence in the Czech Republic, further expands the potential of our academics and students and creates the conditions for success.

Corporate Social Responsibility

New York College, a member of the United Nations Global Compact since 2014, has made Corporate Social Responsibility a key priority of its activities by supporting the actions of organizations that benefit society as a whole.

New York College is the only Greek educational group that is a member of the United Nations Global Compact.

Global Compact Network Hellas is the Local Network of the United Nations Global Compact (UNGC) in Greece.

New York College and the University of New York in Prague: Proud Supporters and Official Partners of the International Economics Olympiad for High School Students

Since 2016, the International Economics Olympiad has engaged more than 350,000 participants, with annual participation exceeding 80,000 students across 22 countries and 4 continents.

Held under the auspices of the International Olympic Academy, this significant initiative promotes excellence and advances economic education among talented young minds worldwide.

We actively support this vital endeavor and look forward to contributing to the success of the next generation of economists!

Support Services to Students

New York College Educational Group provides parallel learning resources and information as facilitators for the achievement of the academic objectives of the university curriculum and the development of the professional skills and personality of each student.

- **Academic Support (advising)**
- **Seminars and Lectures**
- **Foreign Language Departments**
- **Mathematics Laboratory**
- **Counselling**
- **Clubs and Associations**
- **Career Office Writing Center**

Sports Department

New York College has partnered with the historical National Gymnastics Association (EGS) in the NYC Athens Campus neighborhood, just 300 meters from the main entrance of the College, where free supervised training and sports are held for our students, as well as an extensive program of recreational sports activities.

NYC Career Office

**A career office connected
with success stories!**

Having established for more than 3 decades a significant presence in the domestic and international labor market, with its graduates being at the top of the hierarchy of businesses of all sectors, New York College constitutes a guarantee for the professional rehabilitation and career of each graduate.

With 90% of our graduates being employed in the first semester after completing their studies, thanks to New York College's extended professional network in the labor market, professional rehabilitation is not a theory, but an objective fact!

Strategic Partnership Between New York College and SAP

Access to Leading-Edge Technologies, Critical Skills Development, Internationally Recognised Certifications, and Career Prospects for NYC Students

New York College maintains a strategic partnership with SAP SE, the global market leader in enterprise software, further elevating the technological and academic standing of its degree programmes offered in collaboration with distinguished public universities from the UK and the US. Within this framework, the College integrates the SAP Learning Hub, enhanced student edition into its curriculum—a state-of-the-art platform deployed by leading multinationals for designing, analysing, and optimising business processes.

By embedding the system across all academic levels, students train under real-world market conditions and cultivate critical competencies—ranging from analytical thinking and process analysis to strategic data-driven decision-making. Concurrently, students have the opportunity to earn SAP Certifications, substantially enhancing their professional credentials and securing a formidable competitive advantage for placement within the SAP ecosystem and leading global corporations.

Career Office Services

CV, Letter of Introduction and Interview Techniques

Individual and group workshops for writing a competitive CV and improving the student's personal professional interviewing skills.

Specialized seminars

Organization of specialized seminars for students and graduates of the College throughout the academic year by the Career Office.

Annual Career Fair

Participation of important companies from Greece and Europe in the Career Fair, aiming at interviewing students and graduates for their recruitment in permanent positions.

Historic RECORD Performance in Annual Graduate Survey

At the Forefront of Employability and Student Satisfaction

Demonstrating outstanding results that reaffirm its academic excellence and leadership in private higher education, New York College has concluded its annual digital Graduate Exit Survey across its Athens and Thessaloniki campuses.

The findings highlight an exceptional rate of workforce absorption, with 70.8% of graduates securing employment prior to completing their studies, while the overall graduate employment rate surges to 83.3% within the first three months of graduation. Concurrently, 95% of graduates take their next pivotal career step (entering the workforce or pursuing further postgraduate studies) within the same period, with the vast majority (63.1%) actively working directly within their field of study.

Academic rigor and the distinction of the faculty stand as the primary pillars of student satisfaction, reaching an impressive 85.7% (Average Score: 4.25/5.00). Specifically, Teaching Quality and Academic Support received leading approval ratings of 93.2% and 90.9%, respectively. This indisputable excellence is further mirrored in a high Net Promoter Score (NPS 8.07/10), with 77.5% of graduates stating unequivocally that they would choose New York College again for their studies, while 43% of new enrollments currently originate from organic word-of-mouth recommendations.

This institutional success is reinforced by stellar evaluations across key student services (Admissions: 94.2%, Administrative Services: 89.6%, Career Office: 87.3%), with innovative curriculum design emerging as the #1 driving factor behind prospective student choice. The survey results unequivocally demonstrate that at New York College, academic study translates directly into tangible professional success, consolidating an enduring bond of trust with the next generation.

state universities

School of Business

The New York College School of Business enables students to complete university degree programmes entirely in Greece, earning recognized qualifications (Bachelor's, Master's, MBA, Ph.D.) directly from British or American public universities. Offering leading-edge specialisations across the global business sphere, programmes feature flexible study durations and instruction available in either Greek or English.

Through modern curricula, the School delivers high-demand specialisations tailored to current market needs, including Business Administration, Finance, Marketing, Communications, Human Resource Management, and Corporate & Executive Coaching. Graduates of these university programmes pursue thriving careers as executives within corporations, non-governmental organisations (NGOs), and national or European agencies, as well as self-employed professionals and entrepreneurs in Greece and internationally.

Particularly across postgraduate and doctoral programmes, the curriculum structure and flexible delivery methods are specifically designed to cater to working professionals and corporate executives, facilitating their professional advancement alongside their studies.

Bachelor's Degree in Business Administration

Concentrations: Human Resources | General Business | Finance | Marketing | Supply Chain Management | Management Information Systems

The BSc (Hons) Business Management, awarded by the University of Greater Manchester, is a globally accredited undergraduate programme taught entirely at New York College in Greece. Blending academic rigor with hands-on practice, it equips students with comprehensive business acumen and the competitive competencies sought after across national and international markets.

Curated to address contemporary industry challenges, the programme bridges foundational theory with practical application. Learning is guided by highly qualified faculty and seasoned industry practitioners who incorporate authentic business case studies into every module.

Students tailor their degree by selecting one of six industry-aligned specialisations: Marketing, Finance, Human Resources, Management Information Systems, General Business, or Supply Chain Management.

WHY CHOOSE THIS PROGRAMME

- The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the UK (The Guardian's Best University Guide 2024).
- Duration of Study: 4 academic years, or just 3 years for High School graduates with an Apolytirion GPA over 15 and excellent command of English.
- Flexible study modes: available in full-time or part-time tracks.
- Strong emphasis on practical insights regarding business operations and growth prospects in Greece and internationally.
- 200 hours of professional internship/practicum, enabling students to develop hands-on workplace skills and significantly enhance their CVs.

Bachelor's Degree in Communication and Mass Media

In today's era, mass media plays a pivotal role in navigating the complexity of the modern world, making communication professionals indispensable across all dimensions of interaction among individuals, organisations, and societies. The BA (Hons) in Communication and Media from the University of Greater Manchester is a dynamic, interdisciplinary degree programme designed to explore the transformative power of the media landscape and the profound impact of strategic communicators today. During the initial stages of study, students acquire foundational knowledge and essential competencies spanning key facets of media and communication.

As they advance through the programme, students have the opportunity to specialise in one of the following pathways:

- Journalism and Digital Media
- Public Relations and Advertising

WHY CHOOSE THIS PROGRAMME

- Bachelor of Arts (BA Hons) degree awarded directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Comprehensive Curriculum: Build strong foundations through a holistic approach to communication and media, supported by a broad range of contemporary courses.
- Flexible Study Options: Tailored study modes available in full-time or part-time tracks.
- Specialisation Pathways: Customise your degree with focused specialisations in Journalism and Digital Media or Public Relations and Advertising.
- Interdisciplinary Approach: Benefit from a multifaceted curriculum that integrates diverse disciplines, fostering critical inquiry, analytical agility, and adaptability.

Bachelor's Degree in Business Communication

Through the Bachelor of Science (BS) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Business Communication and completed entirely at New York College in Greece, students will be able to:

- Understand the core scope and dynamics of Communication, Mass Media, Public Relations, Advertising, and Marketing, as well as legal and ethical considerations related to business operations and development.
- Gain fundamental insights into the political, social, legal, regulatory, environmental, and technological factors impacting businesses, organisations, and public policy implementation.
- Apply knowledge analytically and critically to real-world scenarios—such as conducting communication analyses and designing strategic communication plans—to assess internal and external stakeholder relations, identify organizational strengths and weaknesses, evaluate associated business risks, and implement necessary strategic adjustments.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BS) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest comprehensive university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- 4-Year US Degree Structure: A full 4-year undergraduate bachelor's degree allowing graduates direct admission to graduate/master's programmes in the United States immediately upon graduation, without requiring any preparatory bridging courses (post-graduate bridging programmes).
- Versatile Postgraduate Pathways: Graduates possess a broad range of options for further Master's level study in disciplines such as Business Administration (MBA), Journalism, Political Science, and Corporate Communications.

Bachelor's Degree in International Business

Through the Bachelor of Science (BS) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in International Business and completed entirely at New York College in Greece, students will be able to:

- Acquire comprehensive and in-depth expertise in managing international business operations and activities, global financial transactions, international marketing strategies, and foreign relations.
- Demonstrate a strong grasp of core business principles, including Management Science, Accounting, Economics, Computing and Information Systems, and Organisational Behaviour, alongside key legal and ethical considerations governing the operation, growth, and multinational expansion of global enterprises.
- Analyse and evaluate the impact of environmental factors (legal, economic, and sociocultural) associated with multinational enterprise operations and cross-border expansion on global economic activity.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BS) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- American Business Heritage: Given the preeminent role of the United States in shaping global commerce and leading multinational corporations, earning a degree from an American university provides a distinct, competitive advantage for students pursuing international business careers.
- 4-Year US Degree Structure: A full 4-year undergraduate bachelor's degree allowing graduates direct admission to graduate/master's programmes in the United States immediately upon graduation, without requiring any preparatory bridging courses (post-graduate bridging programmes).
- Direct Postgraduate Progression: Graduates can seamlessly continue their studies at the Master's level in Business Administration with a concentration in Management.

Bachelor's Degree in Finance

Through the Bachelor of Science (BS) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Finance and completed entirely at New York College in Greece, students will be able to:

- Acquire core financial expertise integrated with foundational principles of Management Science, Economics, Computing and Information Systems, Organisational Behaviour, Commercial Law, and Business Ethics.
- Apply knowledge analytically and evaluatively (critically) to real-world scenarios across the globalised financial markets and transaction landscape.
- Understand the design and operation of financial systems and instruments in relation to assessing and managing corporate risk exposure.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BS) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- US Financial Leadership: Given the post-war emergence of the US economy as the global economic powerhouse and driver of international finance—anchored by Wall Street, the dominance of the US dollar as the primary vehicle currency in international trade, and leading financial markets—earning an American university degree provides a decisive, practical advantage for students pursuing careers in global finance.
- 4-Year US Degree Structure: A full 4-year undergraduate bachelor's degree allowing graduates direct admission to graduate/master's programmes in the United States immediately upon graduation, without requiring any preparatory bridging courses (post-graduate bridging programmes).

Bachelor's Degree in Marketing

Through the Bachelor of Science (BS) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Marketing and completed entirely at New York College in Greece, students will be able to:

- Acquire in-depth knowledge of Marketing Management, Consumer Behaviour, Sales Management, Marketing Research, Services Marketing, and International Marketing.
- Understand key business disciplines, including applications of Management Science, Economics, Accounting, Computing and Information Systems, Organisational Behaviour, Commercial Law, and Business Ethics.
- Leverage a broad foundation in the liberal arts and sciences, delivered through the University's General Education curriculum.
- Develop the essential qualifications and competencies required for a successful professional career in Marketing—specifically in International Marketing—or for progression to postgraduate Master's studies.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BS) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest comprehensive university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Global Marketing Leadership: Given that American corporations—particularly multinational enterprises and tech leaders of the New Economy—have defined global market dynamics in the digital era, earning an American degree serves as a powerful professional passport for students seeking careers in Global and International Marketing.
- 4-Year US Degree Structure: A full 4-year undergraduate bachelor's degree allowing graduates direct admission to graduate/master's programmes in the United States immediately upon graduation, without requiring any preparatory bridging courses (post-graduate bridging programmes).

Bachelor's Degree in Management

Through the Bachelor of Science (BS) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Management and completed entirely at New York College in Greece, students will be able to:

- Acquire in-depth knowledge of Business Management, Organisational Behaviour, Operations Management, and the Legal and Regulatory Framework governing business operations, alongside core foundations in Human Resource Management, Small and Medium-sized Enterprise (SME) Management, Finance, and Marketing.
- Understand key business disciplines, focusing on broader foundational principles and models of Management Science, Economics, Accounting, Information Systems, Commercial Law, and Business Ethics.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BS) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Pioneering US Leadership: Given that American multinational corporations lead the development and application of modern management models, earning an American degree serves as a valuable professional passport for students aspiring to become business leaders, corporate executives, or entrepreneurs in an outward-looking global economy.
- 4-Year US Degree Structure: A full 4-year undergraduate bachelor's degree allowing graduates direct admission to graduate/master's programmes in the United States immediately upon graduation, without requiring any preparatory bridging courses (post-graduate bridging programmes).
- Advanced Managerial Skill Set: Development of advanced technical competencies in operations control, quality control, and the implementation and monitoring of strategic investment projects.

Bachelor's Degree in Communication

Through the Bachelor of Arts (BA) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Communication and completed entirely at New York College in Greece, students will be able to:

- Understand the core scope of Communication, Mass Media, Public Relations, Advertising, corporate and organisational dynamics, Law, and Media Ethics.
- Apply their knowledge analytically and evaluatively (critically) to real-world scenarios.
- Assess the political, social, legal, regulatory, environmental, and technological factors impacting businesses, government affairs, and public or private organisations.
- Acquire functional knowledge of the European and American organisational and business environments, as well as critical government, public policy, and multicultural issues.
- Develop comprehensive Public Relations plans, strategic organisational repositioning frameworks, and corporate rebranding strategies.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Arts (BA) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- American Leadership in Media & Communications: Given the post-war leadership of the United States in the fields of mass media, strategic communication, and public discourse, earning an American degree provides a vital and practical advantage for students seeking high-impact communication careers.
- Experienced Faculty & Practitioners: Highly qualified academic staff and lecturers with extensive field experience across corporate public relations, institutional communications, and political campaign management.
- Applied Learning & Industry Engagement: High-quality teaching methodologies integrating academic lectures with corporate and institutional site visits, practical case study workshops, and guest lectures from distinguished industry professionals and prominent political figures.
- Dedicated Career Support: Active career and alumni services that bridge students directly with the employment market and industry networks.

Master of Business Administration (Executive MBA)

The postgraduate university programme leading to the Executive Master of Business Administration (Executive MBA) from the British public university, UNIVERSITY OF GREATER MANCHESTER, delivered entirely at New York College in Greece, is specifically designed to advance working professionals into senior managerial and executive leadership roles across businesses and organisations. The programme emphasizes the development of advanced management expertise across key business functions, as well as practical leadership competencies, equipping graduates to excel in the globalised marketplace.

Postgraduate students have the option to pursue one of the following specialized pathways:

- Tourism and Hospitality Management
- Financial Management
- Contemporary Marketing
- Information Systems
- Supply Chain and Logistics

Programme Director: Professor Dimitris Bourantas, renowned academic and author, Founder and former Director of the Postgraduate Programmes in Human Resource Management and the Executive MBA at the ATHENS UNIVERSITY OF ECONOMICS AND BUSINESS (AUEB / former ASOEE).

WHY CHOOSE THIS PROGRAMME

- Executive Master of Business Administration (Executive MBA) awarded directly by the British public institution, UNIVERSITY OF GREATER MANCHESTER.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Flexible Intakes: Two intake periods per academic year (November and February/March).
- Executive-Friendly Schedule: Classes delivered on Friday afternoons and Saturdays, tailored specifically for working professionals and executives.

Master's Degree in Human Resource Management

The postgraduate university degree programme leading to the Master of Science (MSc) in Human Resource Management from the British public university, University of Greater Manchester, delivered entirely at NEW YORK COLLEGE in Greece, is designed to ensure a thriving career for its graduates in human resource management across corporations and organisations. The core advantage of the MSc in Human Resource Management is that it equips students with state-of-the-art expertise, robust theoretical grounding, and globally recognized best practices for the effective management and strategic development of human capital.

Programme Director: Professor Dimitris Bourantas, acclaimed academic and author, Founder and former Director of the Postgraduate Programmes in Human Resource Management and the Executive MBA at the ATHENS UNIVERSITY OF ECONOMICS AND BUSINESS (AUEB / former ASOEE).

WHY CHOOSE THIS PROGRAMME

- Master of Science (MSc) in Human Resource Management awarded directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- State-of-the-Art Curriculum: Cutting-edge course content reflecting the latest global industry developments.
- Executive Schedule: Classes held on Friday afternoons and Saturdays, specifically designed to fit the schedules of working professionals and corporate executives.
- Experienced Faculty & Practitioners: Qualified academics alongside distinguished executives with extensive corporate leadership experience in Greece and internationally.
- Effective Teaching Methodologies: Applied, practical, and highly engaging instructional approaches.
- Programme Flexibility: Available in full-time or part-time study modes.
- 100% Coursework Assessment: Continuous assessment through in-class activities, projects, and assignments with no traditional written examinations.

School of Informatics

The School of Informatics at New York College, in partnership with distinguished public universities from the United Kingdom and the United States, offers high-calibre academic programmes with a strong focus on practical application.

The optimisation of business processes and operations through advanced Information Systems across all industry sectors serves as a vital driver of competitive advantage. In direct response to this demand, New York College offers Bachelor's and Master's degrees in cutting-edge technological disciplines within Computer Science, Computer Networks, and Internet & Web Applications—including Software & Application Development, Cybersecurity, Data Science, Artificial Intelligence, and Robotics.

Reinforcing this commitment, New York College is certified by CISCO SYSTEMS as an official Cisco Networking Academy, providing students with the opportunity to refine their technical expertise in network management and cybersecurity.

The New York College Students Club actively supports the design and execution of specialised tech-oriented projects. Facilitated by the Department of Student Affairs, students are encouraged to join these working groups to gain hands-on experience and develop crucial competencies for their personal and professional growth, alongside direct access to state-of-the-art computer science, robotics, and artificial intelligence laboratories.

Graduates in Computer Science are fully equipped for diverse careers in software engineering, systems programming, network administration and support, database design and management, systems analysis and quality assurance, web design and development, and related fields.

Bachelor's Degree in Computer Science

Through the Bachelor of Science (B.S.) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Computer Science and completed entirely at New York College in Greece, students will be able to:

- Gain in-depth expertise in Artificial Intelligence, Data Science, Robotics, Systems Analysis, Digital Communications, Software Architecture, Databases, E-Commerce, and Web Design (utilising Python, C++, Java, among others), alongside a core foundational understanding of microprocessor design, operating system architecture, and programming language design.
- Analyse, deploy, and manage computing systems, addressing both technical specifications and operational management dimensions.
- Understand and apply systems design principles and theories to real-world hardware and software projects.
- Evaluate ethical principles and frameworks in decision-making, assessing the operational impact of information systems and practices on modern enterprise environments.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (B.S.) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Pioneering US Tech Leadership: Given the undisputed post-war leadership and innovation of the United States in Computer Science and Information Technology, earning an American university degree provides a vital and decisive competitive advantage for tech careers.
- Hands-on, Applied Focus: Practical training designed to prepare students directly for the global Information Technology job market.
- Comprehensive Modular Diversity: A broad range of specialized courses providing versatile academic pathways and expansive career opportunities for every graduate.

Bachelor's Degree in Information Systems

Through the Bachelor of Science (B.S.) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Information Systems and completed entirely at New York College in Greece, students will be able to:

- Gain in-depth expertise in Systems Analysis, Digital Communications, Database Systems, E-Commerce, Web Design, and Object-Oriented Programming (utilising Java, Visual Basic, and related languages), alongside a core foundational understanding of microprocessor design and programming language design.
- Analyse, implement, and manage computing systems, effectively addressing both technical specifications and managerial dimensions.
- Understand and apply systems design principles and theories at an applied level to real-world hardware and software projects.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (B.S.) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Pioneering US Tech Leadership: Given the post-war emergence of the United States as the global powerhouse and leader in Information Technology, earning an American university degree provides a vital and practical competitive advantage for tech and IT management careers.
- Analytical & Critical Decision-Making: Cultivation of analytical and critical thinking competencies essential for sound managerial, technical, and strategic decision-making.
- Quantitative & Data Analysis Skills: Robust numeracy and data interpretation competencies, supported by solid mathematical foundations essential for modern IT professionals.
- Applied Business Technology: Proven capability in leveraging information and communication technology (ICT) for transformative business applications.

Bachelor's Degree in Computing

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the British public university, University of Greater Manchester, specialising in Computing and delivered entirely at NEW YORK COLLEGE in Greece, prepares highly sought-after professionals for the fastest-growing sector of the New Economy in an era of digital globalisation.

The primary objective of the curriculum is to provide students with a comprehensive education in computing alongside specialised, state-of-the-art knowledge.

The programme offers a wide range of elective modules leading to targeted specialisations in Artificial Intelligence, Software Development, or Data Analytics.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree awarded directly by the British public university, UNIVERSITY OF GREATER MANCHESTER.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Versatile Career & Postgraduate Pathways: The curriculum prepares students not only for high-impact professional careers in Greece and abroad, but also for postgraduate Master's studies across advanced computing disciplines, as well as business management fields such as Corporate Communications, Human Resource Management, and Strategic Decision-Making.
- High Employability: Graduates are in high demand across the competitive tech and corporate job markets locally and internationally.

Bachelor's Degree in Cybersecurity

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the British public university, UNIVERSITY OF GREATER MANCHESTER, specialising in Cybersecurity and delivered entirely at NEW YORK COLLEGE in Greece, prepares highly sought-after professionals for the fastest-growing sector of the New Economy in an era of digital globalisation.

The primary objective of the curriculum is to provide students with a comprehensive foundation in cybersecurity, combined with advanced, specialized knowledge. The programme offers a wide selection of elective modules that enable students to further refine and tailor their expertise.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree awarded directly by the British public university, UNIVERSITY OF GREATER MANCHESTER.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Close Industry Partnerships: Strong links with leading tech enterprises facilitating direct knowledge transfer and practical employment opportunities from the early stages of study.
- High-Demand Technical Competencies: The curriculum equips students with the critical technical skills required to meet emerging industry demands in cybersecurity—one of the most vital and fast-growing fields across global technology and the wider economy.
- High Employability: Graduates are in exceptionally high demand across domestic and international job markets.

Master's Degree in Data Analytics & Technologies

The Master of Science (MSc) in Data Analytics & Technologies from the UNIVERSITY OF GREATER MANCHESTER, delivered entirely at NEW YORK COLLEGE in Greece, is an ideal choice for professionals aiming to acquire or enhance advanced skills in Data Analytics and secure long-term career growth in this expanding field across industry and research.

Core areas covered include big data analytics and interpretation, predictive modelling and pattern discovery from complex business data, machine learning, multi-format data analysis (text, image, social media, etc.), natural language processing (NLP), and more.

WHY CHOOSE THIS PROGRAMME

- Master of Science (MSc) Degree awarded directly by the British public institution, UNIVERSITY OF GREATER MANCHESTER.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Strategic Dual Focus: Integrates advanced technical knowledge with managerial and organizational competencies.
- Applied Learning Modules: Practical coursework designed to prepare students for demanding roles in the Information and Communications Technology (ICT) sector.
- Flexible Delivery: Designed to accommodate the schedules of working professionals.
- Diverse Curriculum: Broad module selection opening versatile career pathways across sectors.
- Expert Faculty: Instruction by highly qualified academics and seasoned industry practitioners.
- Industry Collaboration: Real-world student projects conducted in partnership with leading IT enterprises.

School of Health and Sports Sciences

The School of Health and Sports Sciences at NEW YORK COLLEGE, backed by the prestige and academic excellence of the American and British higher education systems, offers university degree programmes awarded by recognized UK and US public universities, seamlessly integrating rigorous theoretical foundation with clinical and applied practice.

- **Psychology:** Bearing the hallmark of internationally recognized public universities, degrees in Psychology combine robust academic theory with practical application in accredited mental health and social support centres, underpinned by the enduring credibility of American and British academic standards.
- **Nutrition & Dietetics:** The degree in Nutrition and Dietetics blends scientific knowledge with cutting-edge technology, equipping graduates to establish private practices or pursue rewarding careers across the food industry, hospitals, care homes, nursery schools, wellness and weight management centres, food testing and microbiology laboratories, and scientific research institutes.
- **Biomedical Sciences:** The degree in Biomedical Sciences provides specialized expertise in human health and disease mechanisms, with a core focus on pathogenesis, diagnostic methodologies, and therapeutic interventions. Graduates unlock versatile career pathways in hospitals, microbiology labs, public and private healthcare clinics, haematology laboratories, the pharmaceutical industry, and biomedical research facilities.
- **Sports, Exercise and Health Sciences:** The degree in Sport and Exercise Science – Coaching represents the foundation of educational pathways centered on fundamental human movement. Students gain deep insights into physical activity paradigms while developing essential practical and analytical competencies in sports science, conditioning, and athletic coaching.
- **Physiotherapy:** The degree in Physiotherapy combines high-calibre academic instruction with extensive clinical placements in real-world healthcare settings. With a strong focus on biomechanics, musculoskeletal and neurological rehabilitation, and evidence-based clinical practice, the programme equips graduates with advanced professional competencies for a successful clinical career.

Bachelor's Degree in Biomedical Sciences

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the prestigious British public university, UNIVERSITY OF GREENWICH, specialising in Biomedical Sciences and delivered entirely at New York College in Greece, equips graduates with comprehensive expertise in human health and disease, with a core focus on pathological mechanisms, molecular foundations, and diagnostic and therapeutic methodologies.

All students engage in intensive laboratory sessions, complete their clinical placements in accredited hospitals, and undertake a supervised final-year research dissertation.

It is the only Biomedical Sciences programme in Greece accredited by the leading scientific body in the field, the Hellenic Society of Pharmaceutical Medicine (ELEFI / ΕΛ.Ε.Φ.Ι.), a member of the International Federation of Associations of Pharmaceutical Physicians and Pharmaceutical Medicine (IFAPP).

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the globally recognized British public university, UNIVERSITY OF GREENWICH.
- Top-Tier Academic Ranking: The Biomedical Sciences programme at the University of Greenwich ranks among the Top 12 university programmes in the United Kingdom.
- Outstanding Postgraduate Progression: More than 80% of graduates successfully advance to postgraduate Master's and PhD studies in the UK, France, the USA, Sweden, and other leading destinations.
- 960-Hour Clinical Placement & Hospital Seminars: Alongside 960 hours of hands-on hospital-based practical training, students attend specialized conferences and clinical seminars hosted within hospital facilities.
- Academic & Conference Participation: Students actively participate in national and international scientific conferences held in Athens and Thessaloniki.
- Dedicated Career Guidance: During their final year, all graduating students receive tailored career mentoring and professional development guidance.

Bachelor's Degree in Nutrition and Dietetics

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the globally recognized British public university, UNIVERSITY OF GREENWICH, specialising in Human Nutrition and Dietetics and delivered entirely at New York College in Greece, equips students with comprehensive expertise across Biological Sciences, Human Nutrition, and Dietetics, alongside essential competencies for high-level professional careers in nutritional sciences.

All students complete a structured 30-week clinical internship/practicum across accredited hospitals. The programme has a standard duration of 3 academic years.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the globally recognized British public institution, UNIVERSITY OF GREENWICH.
- Flexible Professional Pathways: Validated and accredited by the University of Greenwich, the degree empowers graduates to thrive either as private practitioners or within research institutions, clinical settings, and healthcare facilities.
- Outstanding Postgraduate Progression: Over 80% of graduates continue to postgraduate Master's and doctoral studies in the UK, Sweden, the USA, France, the Netherlands, and other leading international destinations.
- Direct Industry Exposure: Students actively participate in premier industry trade fairs and exhibitions directly aligned with their field, including HORECA, ARTOZA, Expotrof, and Foodexpo.
- Scientific Conferences & Symposia: Active involvement in national and international conferences, symposia, and clinical seminars on focal health topics such as obesity, diabetes, and metabolic syndrome.
- Hellenic Mediterranean Diet Centre: Through the New York College Hellenic Mediterranean Diet Centre, students organize and lead dynamic initiatives promoting the Mediterranean diet, nutritional wellness, and healthy living.

Bachelor's Degree in Physiotherapy

The undergraduate degree programme BSc (Hons) in Physiotherapy with Foundation Year from the British public university, University of Greater Manchester, offered exclusively in Greece through New York College, stands as one of the most advanced and comprehensive undergraduate pathways in Physiotherapy and Rehabilitation. The programme aims to deliver rigorous scientific education by seamlessly synthesizing academic theory with clinical experience in real-world healthcare environments. Designed and taught by specialized physiotherapists, healthcare scientists, and clinical researchers with extensive experience in clinical education and applied physiotherapy, the curriculum equips graduates for clinical excellence.

With a strong emphasis on hands-on clinical training and an interdisciplinary approach, the programme effectively prepares students for high-impact careers across healthcare organizations in Greece and abroad.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree awarded directly by the British public institution, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- PhD-Qualified Faculty: Instruction delivered by faculty holding doctoral degrees (PhD) with extensive teaching and clinical experience in Greece, the United Kingdom, and the United States, ensuring high scientific rigour and an international educational approach.
- Early Clinical Immersion: From the initial stages of study, students engage in clinical placements across partner hospitals and rehabilitation centres, acquiring vital practical expertise and competencies that enhance graduate employability.
- Evidence-Based Practice: Aligned with international healthcare guidelines, the curriculum fosters critical clinical reasoning and the application of evidence-based therapeutic interventions, establishing a durable, high-quality standard for health and rehabilitation care.

Bachelor's Degree in Sport and Exercise Science – Coaching

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the British public university, University of Greater Manchester, specialising in Sport and Exercise Science – Coaching, provides students with an internationally recognized foundation in Sports Science, alongside the essential competencies required to specialize and pursue high-level careers in athletic coaching.

Specialisations: Takwondoo, Swimming, Track and Field, Basketball, Exercise throughout life cycle

Students cultivate core theoretical knowledge and applied skills across Sports Science and Physical Education. New York College Athens collaborates with premier athletic facilities—including the historic Ethnikos Gymnastic Club (EGS), the Athens Olympic Athletic Centre "Spiros Louis" (OAKA), the Mets Indoor Hall, and the European-standard training centre for Greek Olympic artistic gymnastics athletes—where students participate in supervised coaching sessions, experiential workshops, and competitive sports. Similarly, New York College Thessaloniki partners with YMCA (XANΘ) and the Kaftanzoglio National Stadium to host supervised training sessions, hands-on practical labs, and competitive sports activities.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the British public institution, University of Greater Manchester
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024)
- Elite Faculty & Practitioners: Courses delivered by academics and practitioners with extensive backgrounds in sports science research, high-performance athletics, and elite competition in Greece and internationally
- Versatile Postgraduate Pathways: Graduates possess a broad spectrum of progression opportunities for Master's studies in areas such as Sports Management, Exercise and Health, Sports Nutrition, and Strength and Conditioning

Bachelor's Degree in Psychology

Through the Bachelor of Science (B.S.) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in Psychology and completed entirely at New York College in Greece, students will be able to:

- Understand the nature of Psychology as a scientific discipline.
- Articulate the foundational principles and characteristics of psychological research methodology.
- Adhere to the APA Ethical Principles and Code of Conduct in psychological research design, methodological formulation, and participant management.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (B.S.) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Pioneering US Leadership in Psychology: Given the post-war leadership and preeminence of the United States in individual and social psychology research, earning an American degree provides a vital and practical advantage for students pursuing careers in psychological sciences.
- Core Competencies & Values: Upon successful completion of the programme, graduates develop key professional attributes, including:
 - Effective interpersonal communication skills and continuous personal development.
 - Sociocultural and global awareness.
 - High-level self-management, encompassing effective time management, planning, behavioural regulation, proactive initiative, and an entrepreneurial mindset.
 - Heightened self-awareness, an open mindset, and deep sensitivity toward diversity across individuals, cultures, and organizations.

Bachelor's Degree in Psychology and Cognitive Neuroscience

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the British public university, University of Greater Manchester, specialising in Psychology and Cognitive Neuroscience and delivered entirely at New York College in Greece, enables students to explore a contemporary approach to the study of the mind-brain relationship. Students gain a comprehensive understanding of cognitive and psychological processes while developing advanced expertise in the neural, hormonal, and molecular mechanisms underpinning human cognition.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Unique Specialisation in Greece: The only undergraduate Bachelor's degree in Greece offering an integrated focus on both Psychology and Cognitive Neuroscience.
- Advanced Research Infrastructure: Supported by a fully equipped Psychological Research Laboratory and a full-time Psychology Technician, students and faculty conduct cutting-edge empirical research. Graduating students have the opportunity to co-publish their final-year research dissertation in scientific journals alongside their supervising professors.
- Top National Rankings for Teaching & Student Satisfaction: Psychology courses at the University of Greater Manchester have achieved top national recognition, including #1 in the UK for Teaching Quality (The Times and The Sunday Times Good University Guide 2020), #1 in the UK for Student Satisfaction (The Complete University Guide 2020), and #1 in the North West for Student Satisfaction (The Complete University Guide 2023).

Bachelor's Degree in Psychology, Psychotherapy and Counselling

The undergraduate degree programme leading to the Bachelor of Science (BSc Hons) awarded by the British public university, University of Greater Manchester, specialising in Psychology, Psychotherapy and Counselling and delivered entirely at New York College in Greece—available in either Greek or English—enables students to explore, critically examine, and apply the core concepts, theories, and therapeutic models spanning all three disciplines.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the British public institution, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Exclusive BPS Accreditation: The only British Psychological Society (BPS) accredited undergraduate degree in Psychology, Psychotherapy and Counselling offered in Greece.
- Graduate Basis for Chartered Membership (GBC): Graduates of the BSc (Hons) Psychology, Psychotherapy and Counselling programme at New York College Athens are eligible for the Graduate Basis for Chartered Membership (GBC) of the BPS—an essential milestone demonstrating that the graduate has completed rigorous psychological training meeting the highest professional standards of the British Psychological Society.
- Advanced Research Infrastructure: A fully equipped psychological research laboratory supported by a full-time technical specialist, empowering students and faculty to conduct advanced research. Students are actively encouraged to collaborate with their faculty supervisors to publish their final-year undergraduate dissertation research in academic journals.

Master's Degree in Psychology (Research Pathway)

The postgraduate university degree programme leading to the Master of Philosophy / Innovation (MPhil / Innovation) awarded by the British public university, University of Greater Manchester, and completed entirely at New York College in Greece, is designed for psychology graduates seeking to advance their specialized expertise and conduct high-calibre academic research in a specific subfield of Psychology.

WHY CHOOSE THIS PROGRAMME

- Master of Philosophy (MPhil) Degree conferred directly by the British public institution, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Dedicated Research Mentorship: Research supervisors, academic staff, and Academic Board members collaborate closely to guide and refine research proposals presented by postgraduate researchers.
- Interdisciplinary Research & Academic Presence: Students and alumni produce innovative, interdisciplinary research and maintain an active profile in the international scientific community through publications and presentations at global conferences.
- 100% English-Taught Delivery: All aspects of the programme are conducted entirely in English—including lectures, seminars, practical workshops, thesis writing, and dissertation defence.

Master's Degree in Counselling and Positive Psychology

The Master of Science (MSc) in Counselling and Positive Psychology awarded by the University of Greater Manchester is an 18-month full-time postgraduate programme encompassing comprehensive study of selected domains within counselling and positive psychology at an advanced level, alongside the development of professional clinical competencies and research skills.

Graduates are eligible to apply for individual membership with the British Association for Counselling and Psychotherapy (BACP), the International Positive Psychology Association (IPPA), and the Hellenic Positive Psychology Association (ΕΕΘΕΨΥ).

WHY CHOOSE THIS PROGRAMME

- Master of Science (MSc) Degree conferred directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Comprehensive Clinical & Applied Curriculum: Core areas covered include the theory, empirical research, and applied practice of Positive Psychology, therapeutic counselling modalities, and research methodologies tailored for counselling and coaching. The curriculum incorporates 120 hours of supervised clinical placement.
- Versatile Career Pathways: Graduates are fully equipped to apply their advanced competencies across health and social care settings, private clinical practice, academia and research, as well as leadership roles centered on human capital and interpersonal dynamics.
- Doctoral Progression: Provides a solid foundation for graduates wishing to advance to PhD or professional doctorate studies in Psychology.

Master's Degree in Psychology

The Master of Science (MSc) in Psychology from the University of Greater Manchester is a one-year, full-time postgraduate programme encompassing the comprehensive study of selected domains in psychology at an advanced level, alongside the acquisition of high-calibre professional and research competencies. Core curriculum topics include Advanced Cognitive and Social Neuroscience, Current Topics in Developmental Psychology, Current Debates in Psychology, and/or Positive Psychology. The programme also provides thorough, hands-on training in both quantitative and qualitative research methodologies in psychology.

WHY CHOOSE THIS PROGRAMME

- Master of Science (MSc) Degree conferred directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Customisable Specialisation Pathways: Choose optional elective modules aligned with your specific subfield of interest in psychology.
- Advanced Critical Understanding: Develop advanced critical knowledge of contemporary research methods, theoretical frameworks, and pivotal debates in psychology.
- Dedicated Research Support & Labs: Conduct empirical research supported by specialized academic supervisors and a full-time Psychology Technician within a dedicated, state-of-the-art Psychology Research Laboratory.

School of Arts, Humanities and Social Sciences

The School of Arts, Humanities and Social Sciences at New York College offers university degree programmes awarded by recognized public universities from the United Kingdom and the United States, emphasizing the multicultural and interdisciplinary nature of its academic departments.

- English Language Teaching (ELT): In partnership with the British public institution, UNIVERSITY OF GREENWICH, New York College offers a specialized undergraduate programme leading to the Bachelor of Arts (BA Hons). Delivered entirely in Greece, the curriculum methodology emphasizes the dynamic interaction between theoretical linguistics and supervised, hands-on classroom teaching practice.
- International Relations: In collaboration with the STATE UNIVERSITY OF NEW YORK (SUNY)—the largest university system in the United States—New York College provides a multidimensional, interdisciplinary, and multicultural environment for students pursuing the Bachelor of Arts (BA) degree from the American public institution, STATE UNIVERSITY OF NEW YORK / Empire State University, completed entirely in Greece.
- Film Studies: Awarded by the British public institution, UNIVERSITY OF GREENWICH, the Bachelor of Arts (BA Hons) in Film Studies delivers comprehensive theoretical foundations and technical filmmaking expertise, with a strong focus on cultivating critical thinking and creative innovation for the contemporary film industry. Each year, dozens of student films produced within the NYC Film Studies Department are officially selected for international film festivals, earning awards and distinctions across Greece, the UK, and the USA.

Bachelor's Degree in English Language and TESOL

The undergraduate degree programme leading to the Bachelor of Arts (BA Hons) awarded by the prestigious British public university, UNIVERSITY OF GREENWICH, specialising in English Language and TESOL (Teaching English to Speakers of Other Languages) and delivered entirely at New York College in Greece, is a three-year full-time programme taught exclusively in English.

All classes are scheduled on weekday mornings to accommodate students' professional commitments, as the majority are already active educators teaching English as a foreign language.

WHY CHOOSE THIS PROGRAMME

- Official Teaching Licence & Full Professional Rights: The degree from the University of Greenwich provides eligibility for a formal Teaching Licence (Άδεια Διδασκαλίας) issued by the Greek Ministry of Education, granting graduates full professional rights and opening rewarding teaching opportunities across Greece and internationally.
- Bachelor of Arts (BA Hons) Degree conferred directly by the globally recognized British public institution, UNIVERSITY OF GREENWICH.
- Academic Rigour & Practical Pedagogy: Seamlessly integrates the academic study of Language and Communication with hands-on, practical training in English Language Teaching.
- Year 1 (Level 4): Students complete three core modules alongside two elective courses selected from a wide array of academic disciplines across the institution.
- Years 2 & 3 (Levels 5 & 6): Students follow a specialized curriculum comprising three core modules plus one or two advanced electives tailored to their academic and career goals.
- Versatile Career Pathways: Upon graduation, students unlock diverse career opportunities across fields including ELT Teaching, Applied Linguistics, Translation & Localisation, Media & Communications, Publishing, and Corporate Management.

Bachelor's Degree in Film Studies

The undergraduate degree programme leading to the Bachelor of Arts (BA Hons) awarded by the prestigious British public university, UNIVERSITY OF GREENWICH, specialising in Film Studies and delivered entirely at New York College in Greece, is a three-year full-time (or six-year part-time) programme taught entirely in English.

The Film Studies Department at New York College is the first film school in Greece to elevate cinema education to university degree level in partnership with the UNIVERSITY OF GREENWICH, London. The department provides students with comprehensive access to state-of-the-art production infrastructure (cinema cameras, sound recording gear, lighting equipment, post-production and editing suites), covering every facet of the audiovisual spectrum: Screenwriting, Film History & Aesthetics, Cinematography, Sound Design, Editing, Producing, and Directing Actors. Each year, dozens of student films from the NYC Film Studies Department are selected for official screenings at international film festivals.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Arts (BA Hons) Degree conferred directly by the globally recognized British public institution, UNIVERSITY OF GREENWICH.
- Pioneering & Recognized Degree: The only three-year Bachelor of Arts in Film Studies offered in Greece, recognized both domestically and internationally.
- Versatile Career Opportunities: Expansive career pathways for creative graduates across film and television production, broadcast media, digital media networks, and advertising agencies.

Bachelor's Degree in International Relations

Through the Bachelor of Arts (B.A.) degree programme awarded by the American public institution STATE UNIVERSITY OF NEW YORK / Empire State University, specialising in International Relations and completed entirely at New York College in Greece, students will be able to:

- Understand core concepts across History, Political Science, and International Relations.
- Examine and critically analyse key events essential for understanding critical political, economic, social, and military developments.
- Identify and prioritise key variables required for thorough analysis in any given geopolitical or policy issue.
- Apply acquired knowledge to contextualise the past, interpret contemporary affairs, and project future global trends.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Arts (B.A.) Degree conferred directly by the American public university, STATE UNIVERSITY OF NEW YORK / Empire State University.
- Global Distinction: The world-renowned State University of New York (SUNY) is the largest university system in the United States, comprising 64 campuses and serving over 400,000 students across undergraduate and postgraduate degree programmes.
- Pioneering Global Leadership: Given the post-war emergence of the United States as the leading global superpower, earning an American university degree provides a vital and strategic advantage for students pursuing careers in diplomacy, foreign policy, and international affairs.

Master's Degree in Applied Linguistics (TESOL)

The postgraduate university degree programme leading to the Master of Arts (MA) awarded by the prestigious British public university, UNIVERSITY OF GREENWICH, specialising in Applied Linguistics (TESOL) and delivered entirely at New York College in Greece, is specifically designed for graduates with teaching experience, practicing language educators, and teacher trainers aiming to advance their professional careers in modern languages across both research and pedagogy. The curriculum prepares candidates to contribute effectively to language education within their institutions through evidence-based research, instructional development, and the implementation of advanced pedagogical methods, while expanding career pathways in teacher education and higher education.

WHY CHOOSE THIS PROGRAMME

- Master of Arts (MA) Degree conferred directly by the globally recognized British public institution, UNIVERSITY OF GREENWICH.
- Targeted Professional Development: Specifically tailored for educators with classroom experience, language practitioners, and teacher educators seeking advanced career progression in modern languages, particularly English language education.
- Core Research Competencies: Introduces postgraduate researchers to cutting-edge inquiry across Second Language Acquisition (SLA), language assessment and testing, and Communicative Language Teaching (CLT).
- Bridging Theory, Technology, and Practice: Students explore the intersection between language learning research and practical classroom environments, while gaining advanced digital competencies in Computer-Assisted Language Learning (CALL) and modern educational technologies.
- Diverse Career Progression: Upon graduation, alumni unlock high-level career opportunities across ELT Instruction, Academic Management and Curriculum Design, Translation, Media and Publishing, and Higher Education.

Master of Philosophy (MPhil)

The Master of Philosophy (MPhil) postgraduate degree programme awarded by the University of Greater Manchester and delivered at New York College (NYC) is a purely research-based qualification.

It is tailored for graduates seeking to conduct in-depth investigation into a specific subject area, cultivating advanced research competencies over a shorter duration than a PhD, backed by the comprehensive flexibility and academic support provided by New York College in Greece.

RESEARCH MILESTONES

- Academic Supervision: Regular consultations with a dedicated research supervisor to guide inquiry, methodologies, and progress.
- Research Thesis: Production and submission of a substantial written thesis aligned with the chosen academic discipline.
- Oral Examination (Viva Voce): Formal presentation and defence of the research thesis before an academic examination panel.

INDICATIVE RESEARCH FIELDS

Business & Management | Psychology | Education | Computer Science & IT | Engineering | Health Sciences | Social Sciences | Arts & Design

WHY CHOOSE THIS PROGRAMME

- Direct PhD Progression: The MPhil frequently serves as the gateway to a doctorate, offering qualified candidates the opportunity to transfer directly into the PhD programme.
- Pure Research Specialisation: Unlike traditional taught MSc/MA programmes, the curriculum is 100% focused on an independent, tailored research project under the mentorship of established academic supervisors.
- Flexible Study Modes: Available in both Full-time (2 years) and Part-time (4 years) modes, enabling working professionals to balance advanced academic inquiry with career commitments.

School of Hospitality and Tourism

The School of Hospitality and Tourism at NEW YORK COLLEGE provides essential, high-calibre education for students pursuing successful careers in the fast-growing hospitality and tourism sectors. The academic curricula across Hospitality and Tourism are designed to deliver comprehensive management expertise in tourism operations and hospitality infrastructure, immerse students in emerging technologies and industry best practices, and cultivate an entrepreneurial and innovative mindset.

Students gain deep insights into the organizational structure and daily operations of modern hotel enterprises, develop essential leadership competencies for managing hospitality and tourism ventures, and engage critically with environmental sustainability, business ethics, and corporate social responsibility. The school strongly champions graduate employability through structured internships, direct industry partnerships, dedicated Career Days, and specialized networking events. Graduates of the School of Hospitality and Tourism are equipped to thrive in dynamic corporate roles across the global visitor economy or launch their own innovative business ventures. Key career pathways include hotel and resort management, tourism marketing, events and conference management (MICE), food and beverage (F&B) enterprise management, and executive leadership roles.

Bachelor's Degree in International Hospitality Management

The BSc (Hons) International Hospitality Management programme awarded by the University of Greater Manchester delivers a comprehensive educational experience through a rich variety of modules and applied activities designed to lay a solid foundation for a successful career in the fast-growing tourism and hospitality industries.

Designed with a strong professional orientation, the programme focuses on multifaceted student development—fostering essential competencies for personal and professional growth while driving academic excellence and lifelong learning. It delivers rigorous study of hospitality management within an international operational and managerial framework, emphasizing critical analysis of contemporary industry practices.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Comprehensive Dual Curriculum: Integrates specialized modules in tourism and hospitality alongside core business management subjects reflecting international industry standards.
- Holistic Skills & Professional Growth: Centers on continuous personal and professional development throughout the course, cultivating essential leadership skills and international hospitality management expertise.
- Extensive Work Placement: Offers structured, extensive internship opportunities enabling students to graduate with substantive work experience highly valued by hospitality employers. 30% of students transition directly into permanent roles within their host placement companies.
- Proven Employability & Corporate Network: New York College's extensive industry network actively supports graduate placement, resulting in over 90% of graduates securing immediate employment in the sector upon graduation.

School of Maritime Studies

The shipping industry is a borderless, multi-billion-dollar global enterprise of paramount economic importance, driving international markets and global trade.

Aspiring professionals seeking a career in this dynamic field require an academic institution that reflects these international standards.

Established in 2006, the School of Maritime Studies at New York College has built an exceptional track record, with its alumni today holding key positions across leading maritime corporations.

The university degree programmes in Maritime Studies emphasize the specialized knowledge, analytical competencies, and leadership skills essential for fast-track professional advancement into executive roles across maritime enterprises and international organizations.

Upon graduation, alumni are equipped to pursue high-impact careers across diverse sectors of the global maritime cluster, including:

- Ship-Owning Companies: Dry bulk carriers, tankers, supertankers (VLCC/ULCC), coastal shipping, and cruise lines.
- Ship Management Companies: Technical management, crew management, marine operations, and fleet safety (HSQE).
- Port Authorities & Terminal Operations: Port management, stevedoring, terminal logistics, and infrastructural development.
- Shipbroking & Chartering: Chartering brokerages, freight trading, and Sale & Purchase (S&P) brokerages.
- Liner Shipping Companies: Global container lines (e.g., Maersk, COSCO, ZIM Lines) and dedicated liner agency networks.
- Marine Insurance & Maritime Law: P&I Clubs, marine underwriting, and maritime consultancy firms.

Bachelor's Degree in International Shipping

The undergraduate degree programme in International Shipping awarded by the University of Greater Manchester is designed for ambitious professionals aspiring to build a high-impact career in the globalized maritime industry. It integrates essential academic foundations in maritime management with the practical, high-demand skills required across the shipping sector.

Fostering academic excellence alongside an applied approach, the BSc (Hons) in International Shipping ensures that students develop a holistic understanding of every facet of maritime operations.

From management and executive leadership to economics, ship finance, strategic decision-making, accounting, human resource and crew management, chartering, maritime risk management, maritime law, and supply chain logistics, the curriculum covers all core disciplines vital for a thriving career in this competitive arena.

WHY CHOOSE THIS PROGRAMME

- Bachelor of Science (BSc Hons) Degree conferred directly by the globally recognized British public institution, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Industry-Experienced Faculty: Courses are delivered by seasoned maritime practitioners and academics who bridge theory with real-world industry practice.
- Comprehensive Career Versatility: Equips graduates with the multidisciplinary expertise required to step into any department within a modern shipping enterprise.
- Dual Strategic Focus: Blends fundamental Business Administration principles with specialized maritime studies, ensuring students master general business acumen and its direct application to global shipping operations.
- Deep Industry Insight: Over the course of three years of study, students develop a sophisticated grasp of the maritime landscape, including market dynamics, strategic opportunities, emerging trends, and risk management.

MBA in International Shipping

The MBA International Shipping programme delivers a comprehensive mastery of maritime business management, emphasizing the executive leadership competencies required to attain top-tier management positions in this specialized global industry. Upon completing the programme, graduates possess in-depth operational knowledge and an advanced academic skill set, equipping them to perform as high-impact leaders across diverse departments of a shipping enterprise and address complex daily industry challenges.

The MBA International Shipping curriculum spans all core dimensions of maritime enterprise management through executive-level modules, including: Strategic Management and Leadership in Shipping, Maritime Policy and Regulations, Strategic Decision-Making in Shipping, Human Resource and Crew Management, Chartering, Maritime Risk Management, Maritime Marketing, and Big Data Analytics in Shipping.

WHY CHOOSE THIS PROGRAMME

- Master of Business Administration (MBA) Degree conferred directly by the globally recognized British public institution, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Strategic Commercial Expertise: Enhances the candidate's strategic perspective on specialized commercial operations and requirements within global shipping, advancing existing technical capabilities and theoretical acumen.
- Executive Career Mobility: As an advanced postgraduate qualification, the MBA equips graduates with executive agility to assume leadership and decision-making roles across any operational or administrative department in the maritime sector.

Research

Degree

Excellence

Doctor of Philosophy (PhD)

New York College, in partnership with the British public university, University of Greater Manchester, is committed to research excellence and actively encourages graduates across all academic disciplines to advance their scholarly journey by pursuing a doctoral degree.

This programme is specifically designed for candidates aspiring to conduct supervised doctoral-level research culminating in a doctoral dissertation that represents an original and independent contribution to knowledge.

WHY CHOOSE THIS PROGRAMME

- Doctor of Philosophy (PhD) Degree conferred directly by the British public university, University of Greater Manchester.
- Top 30 UK Ranking: The University of Greater Manchester ranks among the Top 30 and fastest-growing universities in the United Kingdom (The Guardian's Best University Guide 2024).
- Comprehensive Doctoral Support & Training: The Doctoral Studies Department at New York College provides ongoing professional development and structured academic support through dedicated training seminars covering:
 - Academic Writing (30 hours)
 - Developing the Research Proposal (2 hours)
 - Goal Setting and Time Management (2 hours)
 - Research Integrity & Academic Ethics (2 hours)
 - Resilience in Thesis Revisions (2 hours)
 - Comprehensive Literature Review (2 hours)
 - Effective Candidate-Supervisor Collaboration (2 hours)
 - Stress Management & Managing Cognitive Impairments (2 hours)
 - One-to-One Academic Mentoring & Guidance (10 hours)

A small but big start in 1990: a cultural symbol for the **FUTURE!**

In 1990, the President and Founder of the NEW YORK COLLEGE Educational Group, Mr. Elias Foutsis, sealed the cooperation of NEW YORK COLLEGE with the American STATE UNIVERSITY OF NEW YORK at New Paltz, by donating to the University an authentic likeness of the Hermes of Praxiteles statue, which was created in the Laboratory of the National Archaeological Museum of Greece.

The statue adorns the premises of the American University to this day, as a cultural projection of Greece in the US and as a timeless symbol of the academic philosophy of NEW YORK COLLEGE, which combines respect for tradition with the indestructible Greek values and an eye to the future.

December 1990, at the Administration Building of the STATE UNIVERSITY OF NEW YORK on the campus in New Paltz: The statue of Hermes of Praxiteles, sculpted by the Laboratory of the National Archaeological Museum of Greece, donated by NEW YORK COLLEGE (right).

Shown (from left to front) Dr. Robert Mumber, Director of International Education at the University; Dr. Don Bisco, Dean of the University's Business School; Mr. Elias Foutsis, President and Founder of the NEW YORK COLLEGE Educational Group, Dr. Alice Chandler, then President of the STATE UNIVERSITY OF NEW YORK AT New Paltz, and Dr. William Vasse, Vice President for Academic Affairs at the University.
